

OHIO OLARTE

Project Manager

ohio@araw.xyz | Quezon City, Philippines

I am a motivated project manager with more than nine years of professional experience in tech-adjacent industries including oil & gas, real estate management, market research, and customer experience.

Skills

- Research, data analysis, and technical writing
- Basic know-how on SQL, Python, C, HTML, CSS
- Effective communication with stakeholders
- Value engineering
- Critical thinking
- Attention to detail

Work Experience

iCXeed — Project Manager (6 months)

- Managed AU\$ 50,000+ Customer Experience projects using AI, analytics, and automation, via Amazon Connect (AWS)

Ipsos Inc. — Senior Project Management Executive (1 year)

- Led cross-functional teams defining project scope and ensuring effective communication.
- Developed data management strategies to handle personally identifiable information (PII) and sensitive PII for security and integrity of market data.

Kantar Philippines Inc. — Associate Project Manager (2 years)

- Performed root cause analyses to solve analytics issues saving more than 23% in project resources.
- Mentored four associates to manage Level-3 projects, ending with glowing stakeholder reviews.

Jones Lang LaSalle (Philippines), Inc. — Assistant Project Manager (3 years)

- Led multiple 10+-member engineering teams ensuring resource and meeting industry standards.
- Managed concurrent projects up to PHP 5 million (~USD 90,000) each.

Archen Technologies, Inc. — Project Engineer (2 years)

- Oversaw compliance with standards for technical engineering initiatives for Petron Corp.
- Managed projects worth PHP 300 million (~USD 5.37 million) on average annually.

Education and Training

Google Career Certificate in Cybersecurity — Google on Coursera (Oct 2024)

Introduction to Applied Cryptography — University of Colorado System on Coursera (Jan 2024)

Creative Problem Solving for Technologists — LinkedIn Learning (2023)

Python 3+ — “Automate the Boring Stuff” Practical Programming (2020)

Registered Electrical Engineer — licensed under Philippine Regulatory Commission

BSc. Electrical Engineering — Technological University of the Philippines, Manila, Philippines

Academic Scholar — Philippine Department of Science and Technology (2009 – 2014)

Community Involvement

Silliman University (with University of London SOAS) — Researcher (6 months)

Involved in engaging with small community stores, conducting surveys, collecting data, and identifying barriers to the expansion of Zero Waste stores, whose goal is to develop a national network supporting small, community-based, serving low- to middle-income families.

Greenpeace — Volunteer and Contributor (5 years)

Volunteered in the Brand Audit 2019, along Manila Bay, documenting the brands found on plastic waste to pinpoint polluting companies. Also supports campaigns for Filipino ecological rights, including climate justice, plastic pollution, clean energy, and sustainable farming.

Make It Safer Movement (MISMO) — Volunteer and Facilitator (2 months)

Currently involved in organizing for mobility justice activists, specifically in urban areas like the Metro Manila, that call for safer and more inclusive public transportation for all.
